Vorwort zur ersten Auflage.

Bei der aufserordentlichen Anerkennung und weiten Verbreitung, die Justus Perthes' Taschen-Atlas nicht nur in vielen Schulen, in der Hand des Lehrers wie des Schulers, sondern bei allen Gebildeten gefunden hat, lag der Gedanke nahe, ein ähnliches handliches Hilfsmittel auch für das Gebiet der Geschichte, und zwar zunächst der alten, zu schaffen.

Es wird daher hiermit eine Reihe Karten zur alten Geographie geboten, wie sie in solcher Vollzahligkeit und in gleich klarer, eleganter Ausführung durch Kupferdruck und Handkolorit zu so billigem Preise bisher noch nicht bestand. Die bedeutende Reichhaltigkeit des Inhaltes aber, die keineswegs die Übersicht beeinträchtigt, geht am besten aus dem beigegebenen Namenverzeichnis hervor, welches nicht weniger als 7000 Namen enthalt.

Leider war es dem Bearbeiter des kleinen Werkes Prof Dr. A. van Kampen nicht vergönnt, dessen Fertigstellung mitzuerleben; bei seinem im vorigen Jahre erfolgten fruhen Tode lagen zwar sämtliche Kartenblätter im Stich schon weit fortgeschritten vor, doch war noch für alle eine genaue Korrektur und besonders die Anfertigung des Namenverzeichnisses zu besorgen. Dieser Arbeit unterzog sich nach ergangener Aufforderung der Verlagsanstalt der Unterzeichnete, ein dankbarer Schuler und treuergebener Kollege des verstorbenen Verfassers, gern.

Die Korrektur bezog sich notwendigerweise nur auf Beseitigung fehlerhafter Namen und hier und da, wo es der Raum gestattete, auf Hinzufugung einiger aus historischen Grunden wichtiger Grtsbezeichnungen. Für die Aufstellung der einzelnen Karten, den Mafsstab und die Auswahl des Stoffes ist der Unterzeichnete also nicht verantwortlich. Die Leichtigkeit des Auffindens soll das Namenverzeichnis fördern, das jeden auf der Karte eingezeichneten Namen mit Angabe der Kartennummer und des Feldes, in dem er zu suchen ist, enthalt. Bei Namen derselben Örtlichkeit, die sich auf mehreren Karten wiederholen, ist in der Regel nur auf die in grösserem Mafsstabe ge-

Digitized by Google

holtene verwiesen. Den einzelnen Namen ist ausser den unten angegebenen abgekurzten Erklarungen noch der Name der Landschaft hinzugefügt, in welcher der betreffende Ort oder Fluss u. s. w. sich befindet, ein Verfahren, das namentlich bei den nicht wenigen gleichen Bezeichnungen verschiedener Örtlichkeiten das Finden der gerade gewunschten wesentlich erleichtert. Am Schlusse sind noch die von van Kampen auf der Tabula Peutingeriana ausgewahlten Namen alphebetisch aufgezahlt, und zwar in der Orthographie und (nach dem Vorschlage K. Millers, Die Weltkarte des Castorius, Text p. 103) auch im Kasus der Tabula, da die Nominativform oft zweifelhaft ist, in vielen Fallen in der Volkssprache überhaupt nicht existiert hat.

Móge sich der kleine Atlas antiquus in weiten Kreisen viele Freunde erwerben!

Gotha, Oktober 1892.

Dr. Max Schneider.

Abkürzungen.

aest. = aestuarium.	*mon.* = monumentum.	*riv.* = rivus.
camp. = campus	*op.* = oppidum.	*sin* = sinus.
fl. = fluvius.	*paenins* = paeninsula.	*templ.* = templum.
fr. = fretum.	*pal.* = palus.	
ins. = insula.	*pop.* = populus.	
lac. = lacus.	*pr.* = promontorium.	*cf.* = confer.
m. = mons	*prov* = provincia.	*p.* = prope.
ms. = montes.	*rg.* = regio.	*s.* = sive.

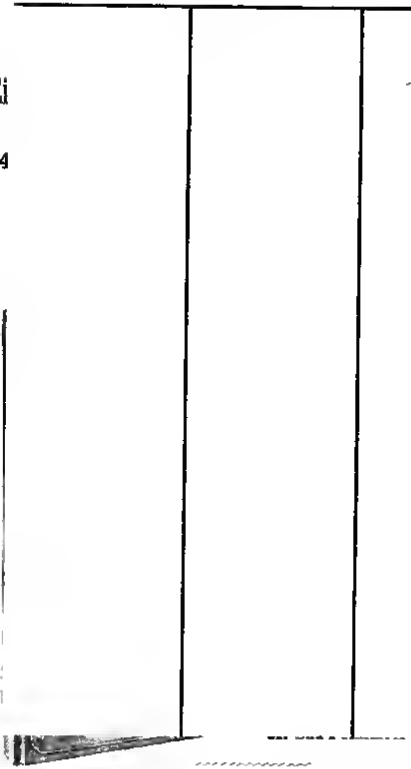
LANE MEDICAL LIBRARY

This book should be returned on or before the date last stamped below.



Der See-Atlas soll nicht nur ein unentbehrlicher Begleiter für alle Seefahrer sein, sowohl für diejenigen von Beruf als auch besonders für einen Jeden, der überhaupt einmal über den Ozean fährt, sondern er wird sich auch als eine nützliche, von Vielen längst gewünschte Ergänzung zu dem weltverbreiteten „Taschen-Atlas" bewähren. Geben doch erst Kartenbilder der Ozeane in Verbindung mit Landkarten eine vollständige Anschauung von der ganzen Erdoberfläche. Die Stern- und Polarkarten, die meteorologischen und magnetischen Weltkärtchen u. s. w. dürften nicht minder von allgemeinstem Interesse sein.
